

A DAY WITH FUEL+

USER SCENARIO

Shadrach. 35 years old. 70kg. Sedentary job. Training on the side. Using Fuel+ to close the loop between what he eats, how he trains, and what his body is actually doing.

07:00

WAKES UP — OPENS FUEL+, MONITOR TAB

ENGINE STATUS

Body is running 81% fat · 19% glucose.

10h since eating — running on stored fat.

Liver maintaining blood glucose from glycogen reserves.

Action card: Running on stored fat — no need to eat unless genuinely hungry.

Not hungry. Lets the fast continue.

08:30

LOGS TODAY'S PLAN — PLANNER TAB

PLANNER:

Goal: Maintain

Activity: Zone 2 — 45 min (air bike)

Planned for: 08:30

Planner state is now included in the Advisor's context for the rest of the day.

08:30

ZONE 2 SESSION — 45 MIN AIR BIKE

Logs it as an activity block before last meal. FROM 08:30 TO 09:15.

ENGINE STATUS

Body is running 65% fat · 35% glucose.

Zone 2 active — fat oxidation at its peak.

Protein within 60 minutes after this session goes to mitochondrial repair.

09:20

BREAKFAST — TYPES IN ADVISOR TAB

SHADRACH TYPES:

3 scrambled eggs, 2 pieces whole wheat toast, black coffee

FUEL ADVISOR RESPONDS:

A solid breakfast with good protein and complex carbs.

MACROS: carbs=38 fat=18 protein=26

MICRO CONTRIBUTIONS FROM THIS MEAL:

Vitamin B12 1.8 mcg +75% of daily target

Iron 2.8 mg +35% of daily target

Zinc 2.1 mg +19% of daily target

Magnesium 42 mg +10% of daily target

Potassium 310 mg +9% of daily target

Taps → **LAST MEAL.** Macros applied. All 5 micros added to MICROS tab.

11:30

TAPS "WHAT SHOULD I EAT AND WHEN?" CHIP

FUEL ADVISOR RESPONDS:

RIGHT NOW: Small handful of almonds or a boiled egg.

NEXT MEAL: 13:20 – grilled chicken with rice and vegetables.

TRAINING: Zone 2 already done. No further training today means
carbs at lunch are appropriate for the 4h gap.

Not hungry enough. Skips the snack. Waits for lunch.

13:25

LUNCH — TYPES IN ADVISOR TAB

SHADRACH TYPES:

150g grilled chicken, 1 cup cooked rice, mixed salad with olive oil

FUEL ADVISOR RESPONDS:

Good post-morning meal – carbs timed well after the 4h gap.

MACROS: carbs=52 fat=16 protein=48

MICRO CONTRIBUTIONS FROM THIS MEAL:

Magnesium 48 mg +11% of daily target

Zinc 3.2 mg +29% of daily target

Iron 1.8 mg +23% of daily target

Potassium 620 mg +18% of daily target

Vitamin B12 0.4 mcg +17% of daily target

Taps ■ **MOVE TO PREVIOUS MEAL.** Breakfast shifts up. Fasting window badge turns blue — 4h 5m.

15:00

CHECKS MICROS TAB

MICROS TAB

Vitamin D3 FROM FOOD: 0 IU (0%) – nothing today

Magnesium FROM FOOD: 90 mg (21%) – low, consider supplement

Zinc FROM FOOD: 5.3 mg (48%) – on track

Iron FROM FOOD: 4.6 mg (58%) – on track

Vitamin B12 FROM FOOD: 2.2 mcg (92%) – nearly covered

Omega-3 FROM FOOD: 0 mg (0%) – nothing today

Potassium FROM FOOD: 930 mg (27%) – low

Vitamin K2 FROM FOOD: 0 mcg (0%) – nothing today

Takes 400mg Magnesium supplement — logs it. Decides to have salmon at dinner for D3 and Omega-3.

19:00

DINNER — TYPES IN ADVISOR TAB

SHADRACH TYPES:

200g grilled salmon, 100g cooked spinach, 1 medium sweet potato, 30g almonds

FUEL ADVISOR RESPONDS:

Excellent dinner – strong micronutrient profile.

MACROS: carbs=40 fat=41 protein=52

MICRO CONTRIBUTIONS FROM THIS MEAL:

Vitamin D3 800 IU +133% of daily target

Magnesium 240 mg +57% of daily target

Zinc 2 mg +18% of daily target

Vitamin B12 8 mcg +333% of daily target

Iron 5.4 mg +68% of daily target

Potassium 1778 mg +52% of daily target

Omega-3 4000 mg +800% of daily target

21:00

END OF DAY — MICROS TAB SUMMARY

MICROS TAB

Vitamin D3 FOOD: 800 IU SUPP: — TOTAL: 800 IU 133% ✓

Magnesium FOOD: 330 mg SUPP: 400mg TOTAL: 730 mg 174% ✓

Zinc FOOD: 7.3 mg SUPP: — TOTAL: 7.3 mg 66%

B12 FOOD: 10.2 mcg SUPP: — TOTAL: 10.2 mcg 425% ✓

Iron FOOD: 10.0 mg SUPP: — TOTAL: 10.0 mg 125% ✓

Omega-3 FOOD: 4000 mg SUPP: — TOTAL: 4000 mg 800% ✓

Potassium FOOD: 2708 mg SUPP: — TOTAL: 2708 mg 80%

Vitamin K2 FOOD: 0 mcg SUPP: — TOTAL: 0 mcg 0%

Decisions from the data:

- Vitamin D3, B12, Iron, Omega-3 — fully covered from food. No supplements needed.
- Magnesium — supplement topped it well past target. Done.
- Zinc — 66%. Small supplement dose tomorrow.
- Potassium — 80%. Banana or avocado tomorrow morning.
- Vitamin K2 — missed today. Take it tomorrow or add natto or hard cheese.

WHAT THIS REPLACED

- Googling "how much Vitamin D3 is in salmon"
- A separate nutrition tracking app for macros
- Guessing whether to take each supplement

- Not knowing if the 4-hour meal gap was right
- Missing the protein window after Zone 2
- Eating before the previous meal was cleared
